

Dated – 20/04/2026

Today the meeting was held under the leadership of school secretary Celima Cathrina Linda. Topic was conservation of water. PTA members have shared their opinions on this. They said that water reservation is very necessary at present days. We can save water for future using by water harvesting, roof water collection, rain water collection etc. One of the members shared about the need of water by human beings animals and other living thing. How much water can be used per day?
