

Dated 25/04/2026

Today awareness drive was taken by class teachers as well as subject teachers.

There were three groups – classes Nc to II, classes III to V and classes VI to X.

Resource persons Mr. Gladson and Mr. Louis have taken initiative under the guidance of The Principal to share their experience – how we can save water. They have demo class for utilizing the water. Few teachers also have shared their thoughts to inspire the students.
